SOLOMAX
PULSE LAVAGE SYSTEM

Our Solomax Pulse Lavage System is a fully disposable, battery powered lavage system designed for wound debridement across a variety of surgical applications

The handpiece is lightweight and features a two-speed trigger mechanism for low or high pressure lavage. This Pulse Lavage System has a unique quick release Battery Pack connection for safety.

Hand Piece

Lightweight, ergonomic designed to reduce grip pressure and enhance control

Trigger Control

Two finger-controlled lavage pressures:
-Powerful pulsed lavage pressure (bone cleansing)
-Low pressure (wound debridement)

Nozzle Attachment

30mm secure retaining bracket
Supplied including 30mm Cone Tip and Coaxial Tube

Power Unit

External power unit lowers weight of handpiece to improve control
Quick release Battery Pack connection for safety

Technical Specification
DC 12V/AA x 8 cells alkaline battery
3m tube length
High speed flow rate up to 1000ml/M
Low speed flow rate 700ml/M
Pressure up to 15psi

Single Use Only - DO NO RESTERILISE

Ordering Information

SMX-2500-Z-DP-ST01Z-CT02Z

Including:

Battery powered PLS system
2 x 3 tubing (suction & irrigation)
30mm cone
Coaxial tip
External Battery Pack

SMX-BT04Z

Femoral Canal Brush
